New System of Bookkeeping

FOR PHYSICIANS

CONSISTS OF A DAY BOOK AND LEDGER.

The Day Book is a complete, PRACTICAL and LEGAL FORM, for keeping daily accounts, as a book of original entry. It contains a title page, a table of contents, a table for obstetrical calculation, a calendar, a table of signs used in writing the accounts, twelve pages for bills sent monthly, and twelve pages for address of patients and others.

It has for each week in the year four pages, one for SPECIAL charges and credits, one for all REGULAR VISITS, one for daily EXPENSE ACCOUNT, and one for CASH received. All special charges and credits on account are written on the special page, and include all moneys paid on account, and all special charges for examinations of the chest, abdomen, pelvis, and their viscerae; urine, dislocations, fractures and their treatment; surgical operations, obstetrical delivery, instruments and medicines furnished; EXTRA HOURS OF DETENTION with patients SHOULD BE CHARGED.

The page for regular visits is ruled in columns for name of patron; for WHOM visits were made; for day of the week and month, and columns for amount charged, opposite each name, at the end of the week.

The page for daily expenses will show at the end of the week all disbursements, and to whom paid, thus preventing imposition from the unscrupulous.

The page for cash received will show the date and amount received, and from whom. This will materially assist physicians to keep all credits correctly written up, on the special page, should they overlook any by mistake.

A Day Book SHOULD BEGIN AND END WITH THE YEAR.

All accounts MUST BE WRITTEN IN INK, and on the day the services were rendered, to comply with the law.

To secure the Day Book promptly in any year on the first day of January, the order MUST be sent PREPAID before the first day of December preceding.

Price, \$3 each. Sent free of charge on receipt of price. Copyright secured.

The Ledger is printed in clear type, on the best of paper, ruled in columns with appropriate headings to correspond with the pages of the Day Book. There are columns for regular visits; to whom; special charges; old account, and total account of debit. A SINGLE line of the Ledger will contain the entire weekly amount of a patron when posted from the Day Book. The credit side of the Ledger is ruled in columns to show the month, day, year, amount of cash paid, balance still due, and time bills were presented. If kept properly, the balance due after each credit will appear in its appropriate column; always an item of great importance.

PRICE OF LEDGERS:

500 pages, bound in leather.....\$7.00 250 pages, bound in leather.....\$5.00

The 500-page Ledger is the cheaper.

Copyright secured. Books sent free of charge on receipt of price.

Webster's International Dictionary

Specimen pages, etc., sent on Application.

A Dictionary of English, Geography, Biography, Fiction, Etc.

A complete and thorough revision of the well-known Unabridged, the purpose of which has been not display nor the provision of material for boastful and showy advertisement, but the due, judicious, scholarly, thorough perfecting of a work which in all the stages of its growth has obtained in an equal degree the favor and confidence of scholars and of the general public.

The International has been warmly commended by members of the United States Supreme Court, by all the State Supreme Courts, by all State Superintendents of Schools and by eminent authors and educators almost without number. It is recognized as the standard authority by the United States Government Printing Office, and is the standard to which nearly all school books adhere.

THE BEST FOR PRACTICAL USE.

- BECAUSE** Words are given their correct alphabetical places in the vocabulary, each one beginning a paragraph.
- BECAUSE** The pronunciation is indicated by the ordinary diacritically marked letters used in the schoolbooks of the country.
- BECAUSE** The etymologies are complete and scientific, and the different meanings a word has acquired are given in the order of their development.
- BECAUSE** The definitions are clear, explicit and full; terse, yet comprehensive, and each is in a separate paragraph.

SPECIMEN TESTIMONIALS.

A. L. Chatterton & Co., Medical Publishers, New York, say:—In all our publications, Webster is the standard.

THE SANITARIAN

ESTABLISHED 1873.

☼ ☼ As Others See It : ☼ ☼

Based at the outset upon medical knowledge and naval service, over an extensive field of observation in various climates in different quarters of the world, large experience in dealing with epidemic diseases, and practical sanitation for the maintenance of health under the most trying circumstances:—

"THE SANITARIAN is the American authority for everything appertaining to the healthful condition of the people at large."—*Virginia Chronicle*.

"Is pre-eminently the most practical magazine published in the interest of health."—*N. Y. Hotel Gazette*.

"Easily maintains its superiority over all similar publications."—*Medical World*.

"Has accomplished more good than all of the other sanitary papers put together."—*Hydraulic and Sanitary Plumber*.

"As its name implies, THE SANITARIAN is devoted entirely to Sanitary Science, in its liberal and proper sense. The field it occupies is a most important one, and the editor is admirably qualified for the work he has undertaken."—*Medical Examiner*.

"Is the best sanitary publication in America."—*Mississippi Valley Medical Monthly*.

"THE SANITARIAN is the leading and best edited and most vigorous journal of the age devoted to Sanitary Science."—*Record Union*.

"The editor, Dr. A. N. Bell, is well known to the mercantile community for his co-operation with the merchants in quarantine reform, and to his profession as a leader in Sanitary Science."—*N. Y. Journal of Commerce*.

THE PRACTICAL SANITARIAN.

"The May number of the *Brooklyn Medical Journal* opens with a capital article under the above heading. It is a full and admirable sketch of the life work of Dr. A. Nelson Bell, the veteran pioneer in the great public health movement of this century. No one has been so long, so patient and so persistent in awaking public attention to an interest in this cause. No one has filled so many positions demanding skill in practical work. No one has been more successful in practical work under great difficulties. The writer of the article is Dr. Stephen Smith, the eminent surgeon and author. And this reminds us that among volunteer leaders in sanitary reform the great surgeons are foremost. Who among us will forget the earnest and efficient help of the illustrious Gross, or of the splendid Parker."—*Tennessee State Board of Health Bulletin*.

The Sketch referred to was reprinted in The Sanitarian for June, 1892.—35 cents a copy.

"THE SANITARIAN will continue in its present form, 96 pages *text*, monthly; two volumes yearly. The volumes begin January and July. Subscriptions at any time.

TERMS—\$4.00 a year, in advance; 35 cents a number; sample copies, 20 cents—ten two-cent postage stamps.

All correspondence and exchanges with THE SANITARIAN, and all publications for review, should be addressed to the Editor,

Dr. A. N. BELL,

NEW YORK.

What Rev. C. E. Davis, formerly pastor of People's Church, Boston, says: I am confident of Prof. Grady's ability to conquer all cases of stammering. Not only because I have seen a stammerer cured by him, but because of the *truth of his system*. C. E. DAVIS, Pastor, M. E. Church, Melrose, Mass.

Glenmary is a small private sanitarium, licensed and inspected by the State Commission in Lunacy of the State of New York. It is devoted to the care of the Insane, the Nervous and the Habitude of narcotics. Including all cases its record of cures has always been over 50% of the cases placed under its care. Both voluntary and committed patients are received. There are fifty acres of land and ten acres of parks. Five cottages give ample opportunity for the classification which is so large an adjunct to success. Plenty of excellent water, fine drainage and all the modern improvements in buildings make it an ideal place for the afflicted. Owego is a railroad center and easily reached from all points. Prices and other information upon application. Address,

GLOCKNER SANITARIUM

SISTERS OF CHARITY.

COLORADO SPRINGS, COLO.

The GLOCKNER SANITARIUM has been located at Colorado Springs, on account of the exceptional combination of advantages which this locality enjoys in point of climate, modern conveniences and interesting surroundings.

THE GLOCKNER SANITARIUM.

The Glockner Sanitarium is situated at the northern end of the city, and is easily accessible in fifteen minutes by electric car. The house was designed and built for the special care of pulmonary complaints, though it welcomes other invalids also. It is supplied with every modern convenience and appliance. It is so constructed that every room receives the sun. It is furnished, on every story, with ample porches, some entirely open, so as to receive all the influence of the air and sun; some covered for exercise and air in inclement weather; some completely enclosed in glass, giving all the benefit of the sun, while sheltered from the air. An electric elevator reaches every floor. Electric lights are in every room and hall. Elegant sitting and reading rooms afford opportunity for social enjoyment. Spacious grounds and lawns relieve the eye, and furnish pleasant walks. In order to facilitate life in the open air, so beneficial in pulmonary disorders, a number of tents have been erected on the grounds, in which patients may spend both day and night, if so disposed. Nourishing and well prepared food is of vital importance to invalids, and hence it has been made a point to keep a table of the highest grade, in which the dishes are of a variety to suit every taste and are prepared and served with the greatest care.

The house is owned and managed by the Sisters of Charity. Their ideal is to combine the advantages of the modern sanitarium with the comforts and attentions which ordinarily can be found only at home.

The Good Samaritan Hospital

Corner 6th and Lock Sts., Cincinnati, O.

Under the Efficient Management of the Sisters of Charity.

The private department comprises forty well ventilated, neat, attractive and comfortable rooms, a number being elegantly furnished and calculated to please the most fastidious; two operating rooms, large, well lighted, models of convenience and cleanliness, and up-to-date in every particular. The prestige, incidental to an existence of thirty years, together with the assiduous care and efficient nursing administered by the sisters, insures to its patrons the most proficient surgical and medical attendance.

The ward service is complete in every particular: the occupants receive a degree of privacy unknown in other institutions, the best of medical skill and the kindest nursing. The portals of the institution have ever been open to those afflicted and in need, irrespective of creed, condition or color, and during the years of its existence the accommodations have never been commensurate with the desire to care for the unfortunate.

Twice weekly, clinics are held by the most renowned talent the city possesses, in a commodious, well heated, well lighted amphitheatre, capable of seating two hundred and fifty people. Here patients, suffering with every variety of disease and injury, who are financially unable to engage the best medical attention are treated in the most scientific and effectual manner, and students of medicine are given an opportunity to see, examine and witness the treatment of all cases. For detailed information address

SISTER SEBASTIAN, SISTER SUPERIOR.

Appended is a list of the staff and visiting physicians, the personnel of which is unequaled by any institution in the west.

THE CLEVELAND MEDICAL GAZETTE.

ESTABLISHED
1885.

One of the oldest and best known medical journals in the State of Ohio. It is read and appreciated by a large number of Doctors in the north and west.

It has the right aim. It contains about 100 pages each month of the choicest matter. Every department in charge of well known specialists. The price is right. Not too high for men of ordinary practice. Not too low to prevent good service in form or matter. That price which seems right is \$2.00 a year, in advance. This includes our handsome binder, worth \$1.00.

A CHANCE.

We need a local agent for every county society. The first to apply gets the journal free and something besides. Write about it.

AGAIN.

We can save you about 50% if you send the order for your journals to us. This is a scheme to extend the circulation of the GAZETTE.

Send \$2.00 and this will secure the GAZETTE and show that you mean business. Send a list of the journals you need, and we will tell you by return mail how much the balance will be. Don't forget the check for \$2.00.

Address: Any time, all the year the GAZETTE can be found at

64-66 Euclid Ave., CLEVELAND, OHIO.

Chicago Ophthalmic Hospital, Office, 103 State St., having First-Class Accommodations for the Medical and Surgical Treatment of all Eye, Ear and Throat Diseases. Correspondence Solicited. H. M. MARTIN, M. D., Pres. See page 1469.

THE WEEKLY is edited by FREDERICK T. ROGERS, M. D., and a staff of Editors of Special Departments. Dr. Julius Fehr's HYGIENIC DERMAL POWDER. (See adv., p. 1367.)

THE ALLEN GYMNASIUM

42 to 56 ST. BOTOLPH STREET,
BOSTON, MASS.

**This Institution is Unique in its Combinations, and unlike any other in the Country.
It Comprises, among others, the following Departments for Health:**

THE GYMNASIUM PROPER.—A fully equipped Gymnasium—a School for body training and harmonious development. Class and private instruction. Deep breathing exercises a specialty. Careful attention given to poise, gait and bearing.

NORMAL DEPARTMENT.—For the education of Teachers of Gymnastics. The Course occupies two terms of seven months each. Four years of progressions in light and heavy gymnastics are acquired in the two-year course. The rare opportunity for observation and practice offered by our large and varied classes is of incalculable value to Students. Our graduates now occupy positions of importance in various parts of the country. Special Circular on application.

BATH DEPARTMENT.—Turkish, Russian. Electric, Sulphur, Salt, Pine, Sitz and Tub Baths; Douches. Wet Packs and Dripping Sheets. The most attractive Bath in the country—beautiful Swimming Pool—skilled and careful shampooers. Special Circular.

WATER CURE DEPARTMENT. Special Hydro-Massage Treatment.—In charge of a Hydro-Masseur of twenty-five years' experience. We invite the attention of the Public to this most rational method of cure for disease. The intelligent application of water and ice removes internal inflammation, and massage, *in combination*, restores the impeded circulation. A most grateful treatment for all cases of fever and inflammation. It seems almost the only sure cure for Chronic Dyspepsia and all difficulties of the stomach and bowels. Acute diseases respond quickly to this treatment. Special Circular.

It is the ease with which you can adjust and the comfort it gives to the patient that makes

Chas. Cluthe's Genuine Truss

superior to all other trusses now in the market. This is a truss which holds the hernia, not by direct pressure but by the automatic action of the pad under the weight of the intestines. Hips are left entirely free, no understraps, waterproof, weighs three ounces, no pressure on back. Cheap and can be sent BY MAIL.

Our catalogue, which we wish to send you, contains valuable information about trusses in general. Write for it.

We also make the most improved instruments for spinal curvature, wryneck, club-feet, knock-knees, bow-legs, etc., etc., all fully explained in our new catalogue.

We are sole manufacturers of a triple extension apparatus for ankylosis of the knee, with which we can almost guarantee to stop inflammation in twenty-four hours. The extension, which is controlled by one screw, will instantly allow the patient to use the limb by transferring the weight of the body from the thigh to the sole of the shoe. Order blanks on application.

Patients will be met at the R. R. Depots or Steamboat Landings.

HYGEIA, THE HEALTH HOME, CLEVELAND, O.

ESTABLISHED 1890.

A PERMANENT HOME.

Designed principally for "Retired" People and Elderly People of the "Better Class" only.

This Institution is situated in the East End, the popular resident portion of the city, on a very pleasant, shady and paved street. The equipage is modern throughout, with steam heat, gas, hot and cold water, bath, etc. The rooms are cheerful and pleasant, sunny and airy, well adapted for "Home Comforts," and convenient for the care of the occupant in time of sickness.

The pride of the institution is its large and beautiful grounds, so very valuable in a great city. There are several acres of park, gardens, lawns, orchards and flower plots, and very valuable shade trees, together with beautiful shrubbery, green hedges, and foliage plants of many varieties, which make it much admired as one of the attractive places of the city. The grounds are well kept, dotted here and there with beautiful flowers and choice plants, and outlined by handsome walks and drives which are kept scrupulously clean and attractive.

On every side of the Institution, within short walking distance, are many points of interest for sight-seeing, such as Wade Park, College Buildings and Grounds, Garfield Monument, Euclid Avenue and its beautiful Heights, Cedar Bluffs and Heights, Woodland Hills, Fairmount Reservoir, with its pumping station and high tower, and only a short distance beyond these points of interest is the country with its green fields and pastures, cool orchards and shady groves, and nature in all her loveliness. The grandest Boulevard System of the city will pass through the present grounds of the Institution. Not far away lies Blue Lake Erie in full view, wafting its pure, invigorating breezes to cool the hot summer days.

RESIDENT NURSE DEPARTMENT, OF HYGEIA, Sends out skilled nurses in ONE hour's notice, night or day.

TOURIST ASSOCIATION, OF HYGEIA, Aims permanently to organize frequent STEAMSHIP TOURS, at home and abroad, without costing the members of the association, while touring, much more, perhaps much less, than "Living Expenses" at home. Anyone outside of the Institution can become a member.

A REMOVAL OF THE INSTITUTION to some large center of population, like Chicago or New York, especially ON THE HUDSON is being contemplated. A Prospectus showing, in details, plans for a Magnificent Hotel Home, where select people can live permanently at about two-thirds, perhaps one-half of their present "Living Expenses," and enjoy privileges and advantages that many times the money expended could not buy otherwise, can be had on application. THE CHECKLEY SYSTEM

OF PHYSICAL TRAINING

FOR THE REDUCTION OF OBESITY AND MAKING MUSCLE
WITHOUT DIETING OR APPARATUS.

The diseases that the system practically aims to cure, are weakness of the pelvis, pain and weakness in the small of the back, rheumatism, gout, neuralgia, curvature of the spine, weakness of the heart, asthma, consumption, varicose veins, palsy, paralysis, emaciation, and is a positive and permanent cure of all forms of OBESITY.

Sedentary people, confined to counting room or study feel the need of some method of bodily training that does not call for a great expenditure in appliances, or in time, and attention. They want something that fits into the ordinary routine of their daily life. This is precisely what the Checkley system very happily does. The exercises are stimulating, by keeping the entire system in mind never fail to preserve the interest of those who follow them.

The system is at once welcome to the would-be athlete or those who have no strictly athletic ambitions, yet desire to be healthy and strong. It begins with no shock to the system; an invalid may take it up and find its easy graduations of exercise an exhilaration and benefit. Fleshy people find in this system the simplest and least annoying method ever devised for the reduction of superfluous tissue. No harsh dieting, no appliances; dieting may check the formation of fat, but it does not get rid of that fat that has formed, and its tendency is to generally weaken the body.

This system directly reduces the waist measure and depletes the excessive fat, while it instantly stimulates one who follows its exceedingly simple rules.

Mr. Checkley has frequently reduced the waist measure of a corpulent patient at the rate of an inch a week, and has even reduced the measure nine inches in six weeks, and this too, with no weakening deprivations. In one case of three weeks' training, the measure of the waist was reduced four inches, the hip and waist measure seven inches, the chest one inch, and each upper arm one inch, at the same time the voluntary expansive powers of the chest and neck were increased respectively one inch and a half and one inch.

Many similar cases could be cited. Mr. Checkley avoids the publication of any names as unpleasant to even grateful patients.

WILL DRAW EVERYBODY'S ATTENTION.

PROFESSOR PERSIFOR FRASER, D.S., in *Journal of the Franklin Institute*.

"Even were there no examples of the practical success of this system, its simplicity and reasonableness would take one captive, but the writer has seen a practical proof of its beneficent working on a short and very fleshy man, whose pursuits were so little favorable to the maintenance of the well-proportioned frame, and whose occupations were so exacting and numerous that he had fallen into that bourne of rotundity and flaccid muscles from which few can return. For years he had seriously projected correcting this evil by gymnastic exercise, but had never 'found the time,' and was rapidly tending toward the outline of a human sphere. Finally this little book fell into his hands, and he made a determined effort to follow its precepts.

"Without subjecting himself to any unusual deprivation of diet, he began rapidly to reduce his excessive corpulence, until in three weeks his trunk had changed from the appearance of a pear to that of a barrel, his waist measure had diminished from forty-one inches to thirty-six and one-half, while his chest measure had increased; a neck began to be visible; short breath became a nightmare of the past, and almost without effort he assumed the proportions of an athlete." THE TELFAIR SANITARIUM.

THE TELFAIR TREATMENT

Is the only individual treatment for Liquor, Morphine and Cocaine Diseases. Is endorsed by all leading physicians. It has the enthusiastic sanction of every man and woman who ever took it. It is the only cure where individual treatment is given in each case, and where unfailing results can be assured.

Out-of-town patients are supplied with comfortable quarters at the Sanitarium.

It is the endeavor of the management to make the institution a place eminently homelike, agreeable socially, and pleasant in all its surroundings. There is no flavor of hospital life about it, and no restraint whatever is imposed upon patients. They go and come at will, outside of treatment times, and in general are treated as guests who have paid us a certain sum of money for certain professional services. The rules of the institution are for the general welfare of all and for individual guidance, and as such, do not infringe on the dignity or freedom of any patient. In this way the Sanitarium, while faithfully and honestly carrying out its primary mission, makes of itself a friend and co-worker with every person who seeks its aid and power.

References will be fully furnished of numerous former cures, and leading physicians throughout the State of New York.

Send to us for printed matter. Correspondence strictly confidential.

RICHMOND Pneumatic Aluminum Truss

Sold and Manufactured at 70 West 35th St., New York City.

AN ALUMINUM PNEUMATIC TRUSS.

We guarantee that our Pneumatic Air Pad will not heat Blister or chafe.

The only Back Pad made that works on a ball and socket joint.

A PRINCIPLE ENTIRELY NEW.

No other truss like it—made of one continuous piece of aluminum wire. Its peculiarity of shape adjusts itself to every pose of the body, rests in the hollow of the side, instead of around the hips, and in no position, which the body may take, will it shift the smallest particle of an inch.

The Aluminum Truss is so light, that the wearer scarcely realizes he has anything on. And the Pneumatic Air Pad holds the hernia so secure, and with such a gentle pressure, that you forget you are ruptured.

The pads now in use, made of hard, unyielding substance, such as hard rubber, wood, celluloid, coils and springs, require a heavy pressure, and have a tendency toward widening the breach. **Our PNEUMATIC PAD** adapts itself over the opening, through which the rupture escapes, thereby allowing no possibility of the rupture escaping through any kind of exercise. **And if a cure be possible, the PNEUMATIC PAD will accomplish it.**

Patients who have been unable to procure a truss, which they could wear for a single day with any degree of comfort, are now holding **their hernia with our PNEUMATIC PAD**, with perfect ease and comfort. The highest authorities do not hesitate to recommend and indorse.

This truss is constructed on a strictly scientific basis, the metal is aluminum, which is non-corrosive, and makes the truss beautiful in appearance, and of the lightest possible weight.

The pad, or hernia retainer, is constructed of flexible rubber, in which the air is hermetically sealed at the normal pressure, and of such construction as to absolutely prevent the loss of air. It perfectly retains the rupture, and is worn with the greatest comfort.

The back pad is attached by a ball joint, which allows the truss to remain perfectly in place, regardless of any position which the body may take, and so prevents the truss from slipping and causing the chafing, which results from the wearing of any other truss.

An air-pad truss is not a new thing, but our air pad is constructed on an entirely new principle. Air-pads, heretofore, have been made so that they had to be inflated, consequently, after a short time, they would have to be refilled, or they were worthless. In contrast, our pad is made with the air sealed in, and, by the new principle, is retained, making the loss or variation of pressure impossible.

Every Truss Guaranteed for Ten Years.

Physicians' terms and further particulars given upon application. Correspondence solicited.

I have made a careful sanitary analysis of this water and find it strictly pure in every respect. It is entirely free from every form of organic contamination or impurity. It is also exceedingly palatable, in view of its large mineral content, and its medicinal constituents, as shown by the foregoing analysis, will recommend it for a wide variety of purposes.

Respectfully, G. G. POND.

Hygeia Natural Mineral Water is Saline and Alkaline, diuretic and mildly aperient, clear, odorless and palatable, free from sediment and curative in a great many diseased conditions.

It is a valuable auxiliary in nearly all cases, especially where elimination by the emunctories is desired, by washing out the toxic matters from the blood, to reduce obesity, relieve dropsy, allay irritability of the stomach, vomiting in pregnancy, nausea of anæsthetics after surgical operations, it rests easy on the stomach, moving the bowels gently and acting mildly on the Kidneys.

In habitual constipation it is of a great benefit if directions are followed, being mild in action, it can be administered to the most delicate person, as well as to the robust, varying only in quantity of dose.

It is diuretic by reason of the medicinal constituents, as well as by the amount of water ingested. The salts of soda, potash and lithia contained in it have a special action in the elimination of urea. The American disease—Uric Acid Diathesis—is cured and prevented by the use of this water.

A sample demi-john, containing five gallons, gratuitously and a pamphlet giving directions in hydrotherapy, sent on application.

Our five gallon safety crated demi-john, shown in the cut is used in sending the water direct to the consumer, fresh from the spring, at a minimum cost, empty packages are returned free by express companies.

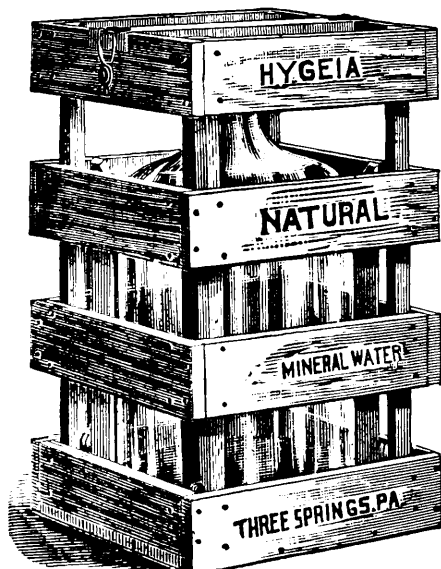

Druggists and the trade are supplied with this water in half gallon bottles, twelve bottles in a crate at reasonable prices.

Dr. Julius Fehr's HYGIENIC DERMAL POWDER. (See adv., p. 1367.)

A New Discovery in Medical Electricity.

MY DISCOVERY consists in the construction of a battery which generates a current of galvanism when there exists a difference of temperature of not less than 30° between the battery and its poles.

Its construction was due to a report made by Professor Seebeck, of Berlin, in 1821, shown in Ganot's Physics, page 840. By experimentation I found that when a battery was composed of copper and zinc elements surrounded with the bi-sulphide of mercury, steel filings, potash, etc., it was capable of generating a thermo current of sufficient intensity for medicinal purposes.

The force generated from the continuity of the current decomposes water, and by a galvanic force the oxygen is conveyed into the blood circulation while the hydrogen passes over to the negative pole; ozone, the light or allotropic oxygen, is set free and carried into any diseased locality infested with bacteria or other disease-producing germs.

Medicine can be conveyed into the tissues when the intensity of the current is increased by winding wood pulp tablets with very minute copper wire.

The discovery and the invention of the Thermo Ozone Battery offers a complete change in the administration of medicine and the treatment of disease. The oxygen creates new red corpuscles of blood, supports combustion and builds up healthy tissues. Ozone which cannot be produced by any other means than galvanic, can now be employed to destroy every variety of animalcules, and medicine sent into the affected tissues without being subjected to the numerous changes consequent upon its administration through the stomach.

The battery has no switches or corroding points, and will last for years. The majority of all prescriptions can be given by this force, and experience has shown with better results than heretofore known. The thermal current acts in a different manner from all other forms of electricity. It alone actively decomposes morbid processes, and exerts a curative action on a diseased nervous system which is truly surprising. Every other electric force tends to destruction of the minute tissues, as illustrated by Althause. The treatment has been employed by numerous physicians in every part of the country who fully endorse its claims by commendatory letters, who furnish more and better evidence of the curative value of the treatment than ever before given in the history of medicine.

By applying the poles of the battery over Peyer's glands, ozone readily destroys the typhoid germs and the progress of the fever is at once arrested. The bacteria of diphtheria are soon destroyed by applications to the throat; and the same result obtained in all endemic diseases. Oxygen sent into the venous blood removes brain fag, cures insomnia and other nervous disturbances. The art of medicine by the means of this discovery becomes broad and universal in its application. For the first time it has been made possible to produce and employ the natural elements of cure together with the direct application of the most approved medicine known to the profession. It differs from other treatment in that it sends the curative agent directly to the seat of disease, without the uncertain and harmful method of administering it through the stomach. If the principle and method of cure are incorrect, then nature's method is an error and medicine a deception.

I will send our illustrated treatise fully explaining the Principle involved in the discovery, on request of any physician, to whom we furnish the battery at one-half price, to wit: \$5.

WE POINT WITH PRIDE TO

Dr. Haskins' Private Hospital.

The building is new, large and commodious, and one of the best equipped institutions of the kind in the U. S. It is a home-like, cheerful place, delightfully situated on high ground where the climate is temperate.

The building has been constructed especially for the purpose for which it is to be used and has been designed to offer peculiar facilities for the accommodation of surgical cases, and the treatment of allied diseased conditions.

It is of stone and brick and practically fire proof and is heated by the hot water system. A passenger elevator of the latest improved pattern is used.

The rooms are large, sunny and well ventilated; each one is provided with an open fire place, hardwood floor, electric and gas lights, electric bells, double walls and double doors and every other arrangement which seems adapted to secure the comfort, seclusion and safety of patients.

There are wards intended for patients whose circumstances are such that they cannot afford a private room.

The operating room, of solid marble, is so constructed as to get

absolutely pure air, heated and moistened to any degree that may be desired. Having my office in the same building, I am enabled to give personal supervision to every case.

A competent resident physician lives in the establishment; well trained nurses will give the patients the best of care.

Number of patients limited to twenty-five (25), no dementia cases received nor any form of disagreeable invalidism.

Patients may engage the services of any physician in good standing with whom they must make their own arrangements. Inspection invited. Full information on application.

Members of the profession who may commend their patients to our care can be assured of the most competent management and most exacting professional courtesy.

Terms \$12.00 to \$50.00 per week, according to room. Address

THE Boothby Surgical Hospital

1 and 3 Worcester Square, BOSTON.

The necessity for a new wing to our hospital, which gives us 12 most attractive single rooms and a sunny ward, to a hospital which seemed almost complete before, speaks for itself of the appreciation, by the profession, of our efforts to provide (as near perfection as possible) a private hospital, where sepsis from outside causes shall be an unknown quantity.

As now completed, this gives us without doubt the largest private hospital facilities in New England.

A medical department, for the treatment of nervous diseases and other non-contagious cases, has been established, entirely isolated from the surgical part, and having a separate entrance. Our complete electrical apparatus, including the most modern static machine, becomes a necessity in this department.

In recognition of an urgent need for such, and, also, that our nurses may have obstetrical training, a maternity has been provided, where cases can be received at moderate fees.

From the graduates and from our training school, exceptionally competent nurses may be obtained almost any hour of the day or night, without registry fee.

Sterilized Hospital Absorbent Cotton.

All of **OUR GOODS ARE IN LAYERS**, rolled in tissue. Our long experience in the manufacture of absorbent cotton leads us to say that we are producing a line of goods superior to any Absorbent Cotton in the market.

THE DEDHAM ABSORBENT GAUZE

Is noted for its soft, silky feeling, and is entirely free from all sizing, and is particularly adapted for surgical dressings and sterilized sponges. It is used by the Boston City Hospital, the Massachusetts General and the Johns Hopkins, and by a large number of small hospitals. Physicians order it in 100-yard rolls for their private practice. We should be pleased to supply you at a very low price.

We are introducing a new specialty for hospitals and physicians—**Absorbent Gauze Bandages**—all widths, either by the yard or pound.

For prices apply to Manufacturers,

COLLEGE OF MEDICINE.

MEDICAL DEPARTMENT OF

Syracuse University.

HISTORY.—The famous Fairfield (N. Y.) Medical School was organized in 1812. In 1841 part of its faculty went to the Geneva Medical School and the other part to Albany. The fame of the Geneva School was soon well established; of the learning and eloquence of her lecturers the graduates always speak with enthusiasm. In 1872 the Geneva School became the Medical Department of Syracuse University. With advancement in Medical Education the Syracuse School has supplemented its lecture courses by recitations and practical work in laboratories and hospital wards, and has arranged all as a four-years' graded curriculum—steadily keeping its standard of admission and scholarship in advance of the legal requirements of the State. AS A RESULT, IT ENJOYS AT PRESENT THE ALMOST SINGLE REPUTATION OF HAVING ONE HUNDRED PER CENT. OF ITS GRADUATES PASS ON FIRST TRIAL THE LICENSING EXAMINATIONS OF THE STATE OF NEW YORK.

NEW BUILDING.—The new college building, with its spacious lecture rooms, numerous more spacious and well equipped laboratories, a library recently supplemented by the gift from Dr. Stephen Smith, of New York, of his large and private collection, an ample cold storage plant for the preservation of anatomical material, (a separate building for animals used in the physiological and bacteriological laboratories) two large study rooms for men and women respectively, modern lavatories, individual students' lockers, photographic dark rooms and an electric plant for running ventilating fans, elevator, physiological laboratory apparatus and supplying incandescent lighting (especially important in the dissecting room) and arc lights for lantern and microscopic projection and photo-micrography, is one of the better appointed medical schools of the United States.

HOSPITALS AND DISPENSARY.—Two large general hospitals, a children's hospital, a large county orphan asylum, an extensive state institution for feeble-minded children and a city free dispensary, are at the service of the faculty and are all utilized for purposes of clinical instruction.

FACULTY.—In the faculty are enthusiastic progressive teachers who strive to advance medical education by accepting as students only well prepared men and women, and insisting upon undergraduates continuing capable and doing steadily step by step the prescribed work of the curriculum. Willing students of average ability experience no difficulty in meeting these demands.

FEES.—The annual fee is \$125.00, paying in full for didactic lectures, recitations, the course in practical anatomy with necessary material, all the various laboratory courses with necessary material and the use of microscopes and other apparatus, the use of the library, bone loan collection, museums, reading rooms and lockers, clinical lectures and training in the hospitals and dispensary, all examinations and graduation. The annual caution fee of \$5.00 is the only other charge.

ROOMS AND BOARD.—Good rooms for one student can be had in Syracuse for from \$6.00 upwards per month, and the same rooms occupied by two students for from \$8.00 upwards per month. By clubbing together in clubs of from six to twelve students, good board can be had for \$2.00 a week per student.

Universal Ankle Supporter

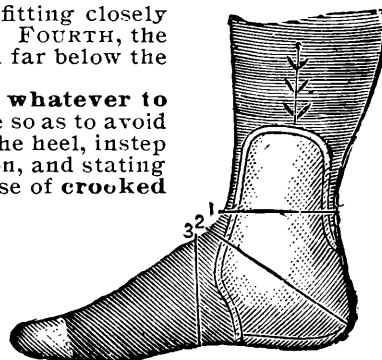

FOR **WEAK AND DEFORMED ANKLES,
SPRAINED AND BROKEN ANKLES,
CHILDREN LEARNING TO WALK.**

Physicians desiring these Appliances will find,

FIRST, it is perfectly simple, having nothing to get out of order. SECOND, it will or can be made to fit perfectly, being made to conform closely to the anatomical structure of the ankle, no matter how badly deformed. THIRD, it is entirely unseen when applied, being worn **inside of the ordinary shoe**, thus fitting closely and giving an equal support or brace all round the joint. FOURTH, the price, which is very low, being within the reach of all, and far below the cost of the clumsy, complicated and unsightly ankle braces.

It adjusts itself, and is consequently **no impediment whatever to motion**, even to children, and can easily be made to measure so as to avoid any pressure on the tender part by simply measuring over the heel, instep and ankle joint, as indicated in the accompanying illustration, and stating if the person treads on the inside or outside of foot. In case of **crooked feet** the Supporter can be extended on one or both sides of the foot. In cases of **deformed ankles**, caused by strains, or being wrenched or broken, by making a Plaster Paris Cast of the ankle and sending us the same.

The Supporters are very durable and lasting, being made in one piece out of the best sole leather, and will wear out several pairs of shoes. Their cost is trifling; their value beyond computation. They support and relieve as soon as put on the foot, and will effect a complete cure of weak, deformed, strained or broken ankles. The leading physicians of this country and Europe endorse and recommend them, and many use them in their own families. Full descriptive circulars cheerfully furnished.

Supporter Adjusted to Foot.

In ordering special sizes where a cast is not required measure as indicated on cut: 1, ankle; 2, heel; 3, instep. Say if for right or left foot.

SEDLACZEK'S BITTERWINE TONIC.

This remedy is prepared from a number of roots, barks and herbs, in the selection of which particular attention has been paid to get those only of known value as remedial agents, combining them with a very fine old Claret Wine.

The combination has the endorsement of many prominent physicians and is highly recommended by those who have been benefited by its use.

For persons of languid habits and weak stomachs, for ladies who are taxed beyond their strength by the demands of society, it is an invaluable restorative tonic, promoting digestion, improving the appetite and giving renewed tone and energy to the whole system.

It is a powerful blood enricher, and recommends itself as useful in dyspepsia, nervous prostration and all forms of general debility.

DIRECTIONS.—A wineglassful before meals or as directed by your physician. Address

JOSEPH SEDLACZEK,
MONROE, MICH.

DOCTOR! YOU CAN SAFELY RECOMMEND THE "ALPHA" SYRINGE.

A SHOTGUN FOR DYSPEPSIA. A noted physician once said:
"A man is a fool who tries to
cure dyspepsia with anything but a double-barreled shot-
gun." We beg to differ with that noted physician. Had he
ever occasion to try, as a remedy, a BICYCLE,

he would not have expressed his views so recklessly. A good Bicycle, such a one as the

BRACELIN'S BACTERICIDE.

DIPHTHERIA CURE, ALSO A POSITIVE PROPHYLACTIC.

This remedy is the discovery of Dr. Bracelin, a prominent physician of Iowa, after twenty years experimenting with this disease and its cure. It consists of two liquids combined, the active therapeutic agent of which is CHLORINE, deprived by correctives of its caustic and irritating qualities.

It is taken by inhalation only, and is both a local and constitutional treatment. Out of 105 clinical tests where it was used in diphtheria, there was but one death. Its use is simple, harmless, yet wonderfully effective. The liquid itself, according to the Bacteriological test, will destroy Kleb-Loefflers Bacilli in two minutes, being a powerful germicide.

It will be found wonderfully efficacious in cases of Croup, Catarrh, Asthma, Pneumonia, Tonsilitis, Bronchitis and all throat and lung troubles.

At this time and while writing this notice, we received the following letter from a Chicago physician, who had a bad case of diphtheria to treat and was supplied with the remedy two days ago:

Mr. J. J. RUSSELL, 167 Dearborn St.

Chicago, Ill., 1, 30, 1896.

MY DEAR SIR:—I went home and at 6 p. m. commenced to use Bracelin's Bactericide. At 3 a. m. she was better and 12 M. she is undoubtedly out of danger. This beats anything I have ever tried. Mrs. Hall, my wife, will call in the morning and get another outfit, as I have a new case at 4829 Loomis St.

Yours truly,

J. L. S. HALL, M.D.,

4718 S. Ashland Avenue.

We urge physicians to give it a trial. If you want more proof as to its merits, send for pamphlet showing testimonials of many prominent physicians. The outfit consists of an inhaler, 1 bottle No. 1 and three bottles of No 2, the price of which is three dollars. If the local druggist can not supply you send for it yourself. Address

THE BABY'S DIGESTION

Is the source of most of its troubles. A little baby is mainly a small machine for the transformation of food into flesh. If the food is of the right sort there is usually no trouble. A doctor's chief concern is in getting a palatable food that will digest easily. It's easy to get it if you start right. Start with

RIDGE'S FOOD

It is a complete diet in itself. It does not depend on milk to make it nutritious. It has to be prepared, but the results are always good. It has no effect upon the bowels—neither laxative nor astringent. It is merely a food, but it is the best food. It digests easily, is really assimilable and makes sound, healthy flesh. If you are not familiar with it we will be glad to send you a sample can with some literature.

COOPER'S LACTO-LITHIATED STRONTIUM COMPOUND. Van Ness Formula.

FOR THE TREATMENT OF BRIGHT'S DISEASE.

The Salts of Strontium used in our preparation are entirely free from Barium, neutral, reliable and palatable. The Lithium is well washed in Alcohol, neutralized and dried. These salts, when combined, in the treatment of Bright's Disease, and in conditions associated with Albuminuria, give results which are so rapid that in 24 hours after dispensing, the Albumen excreted will be diminished one-half, and in ten days almost entirely disappears.

Dose—1 to 2 teaspoonfuls after each meal.

In Bright's Disease, when associated with Uræmia, this is a remedy of extraordinary value. Its effects are immediate and marked, producing a copious action of the Kidneys, the character of which changes after the first dose.

Put up in Pint Bottles only, Price, \$2.00.

The "Geyser" Hot Appliance.

"PATENTED."

"MANY LIVES ALREADY SAVED BY IT."

It automatically supplies heat wherever wanted, constant or gradually increasing, producing results which cannot be attained by any kind of poultices or by heat applied in any other manner.

NO MORE clammy poultices, wet cloths, hot water bags, etc., which commence to lose heat as soon as applied, and therefore, in Pneumonia, etc., do more harm than good, besides the endless trouble.

Every family should have one for sudden attacks of Pneumonia, Pleurisy, Neuralgia, Sore Throat, Grip, Cramps, Rheumatism, Inflammation of the Bowels or Kidneys, Backache, Earache, Toothache, Carbuncles and many other ailments where heat (wet or dry) is required.

Coil weighs but a few ounces (which is very important). Can be started in a moment. Will keep as hot as you want it, as long as you want it. No trouble to anyone.

ST. OMER HOSPITAL.

This Hospital incorporated under the laws of the State, was established in 1893, for the treatment of all non-contagious diseases, especially the surgical diseases of women and orificial cases, where special nursing and expert assistance is required.

The Hospital has a capacity of 22 beds, and is fitted at great expense, after the most approved manner, that it may be maintained in a thoroughly aseptic condition.

The operating room has a glass roof that affords extra ventilation, and an amount of light that cannot be exceeded. The walls are finished in white enamel and the floors in hardwood. Electric lights are everywhere, arranged to furnish the illumination that may be required in conditions of emergency.

The furniture and special operating table are made entirely of iron and glass, and the instruments are of modern aseptic pattern. One of the rooms is elaborately fitted with electrical apparatus for the treatment of those diseases in which the use of electricity is indicated.

A competent staff of physicians and surgeons is attached to the Hospital as well as able well-trained nurses.

All well qualified physicians and surgeons are entitled to operate in this Hospital and attend upon their own patients and to receive any needed assistance from the Hospital staff.

The inspection and patronage of the institution is cordially invited from the profession.

ANALYSIS
OF

Jackson Lithia Springs Water

Chemical Laboratory of the
University
Medical
College.

Claude C. Hamilton, M.D., Ph.C., Prof. of Analytical Chemistry.

H. L. McElroy, Kansas City, Mo.

KANSAS CITY, Mo., March 10, 1894.

DEAR SIR:—I have made a complete qualitative and quantitative chemical analysis of the Jackson Lithia Spring Water, submitted by you, and find each U. S. gallon of 231 cubic inches, to contain—

	Grains to U. S. Gallon
Sodium Sulphate836
Potassium Nitrate350
Sodium Chloride.....	.594
Sodium Carbonate	3.699
Lithium Carbonate ..	.725
Magnesium Sulphate....	5.450
Calcium Carbonate	3.338
Magnesium Carbonate	1.295
Silica.....	1.035

Fixed residue	17.322
Free Carbonic Acid Gas.....	24.100
(51 cubic in.)	
Total Mineral Matter	41.422

This water combines the alkaline reaction of the Sodium and the Lithium Salts with the aperient properties of the Free Carbonic Acid Gas and other constituents. It is mildly laxative and diuretic. Its alkalinity renders it valuable in disorders of the digestive tract, and in combination with the Lithium becomes a solvent for Uric Acid and, therefore, is useful in Urinary Calculi, many kidney disorders, and most all diseases of the bladder.

Yours truly,

CLAUDE C. HAMILTON,
Analytic Chemist.

This Water can be had in cases of 12 half gallon bottles, at \$3.00 per case, to the consumer. A liberal discount to the trade. Send for pamphlet.

NERVOUSNESS,

Nervous Prostration and Exhaustion, Shattered Nerves, and Nerve Weakness very prevalent in the spring and fall. In the spring months, and during the breaking up of winter, people suffer from nervous weakness. There is a diminution in the body of nerve force and power, due to the climatic changes, which leaves the nervous system in a weakened, relaxed and run-down condition. As a consequence there is Mental Exhaustion, Brain Fatigue, Weak and Irritable Nerves, Sleeplessness, Gloomy Depression of Mind, and Extreme Nervousness, Languor and Weakness. It is a loss of nerve and vital power which makes the brain tired, the arms nerveless, the limbs trembling, the muscles weak, and takes away the vim, energy and ambition.

Take C. & B. GERMAN ELIXIR,

The great spring and fall remedy which builds up your Nerve, and makes New and Rich Blood, invigorates and strengthens the whole System. The C. & B. German Elixir takes the lead as a tonic and blood purifier. It cures where others fail.

STOMACH TROUBLES.

DYSPEPSIA, INDIGESTION, AND CONSTIPATION.

That Fluttering! That Terrible Faint Feeling! That Load at the Stomach! That Swelling and Distress after Meals. There is often headache, dull-feeling head, risings of gas, billiousness, and constipation. Then follow shattered and unstrung nerves, sleepless nights with tired waking mornings, until dragged out, nervous and miserable is the only way of describing the feeling. Take the

and after all constipation is gone keep right on with the black pills, and the C. & B. German Elixir, the great remedy for all Skin, Blood and Nervous Affections, for sale by druggists everywhere. Take no other.

This Hospital has been specially designed and built for the care of patients requiring surgical or gynæcological treatment, and it is believed that so far as sanitary conditions, ventilation, light and heating are concerned, this Institution will compare favorably with the best in the land. The rooms are nicely and cosily furnished, the cuisine equals that of first-class hotels, the nurses are thoroughly trained, competent and required to be affable, gentle and attentive. Patients will find in this Institution the comforts, and if desired, the luxuries of a home combined with the quiet, seclusion and trained nursing, such as one finds in hospitals only, and the security which comes from the knowledge of being under the direct and personal care of the Surgeon.

**The Institution is centrally located on N. E. Cor. of Jefferson Ave. and
Locust St., ST. LOUIS, MISSOURI.**

DR. H. TUHOLSKE, Surgeon in Charge.

MISSOURI BAPTIST SANITARIUM.

The Missouri Baptist Sanitarium, one of the newest, largest, most thoroughly equipped and favorably located Sanitariums in the country, while accessible by two of the best electric car lines in the city (the Washington Ave. and Suburban), is yet a quiet, home like place, where rest, cure, baths, (plain and Turkish), electrical treatment, massage and every appliance of a first-class hospital is obtained at very reasonable rates. A large fan, throwing a large volume of air directly into each room, used for heating and ventilating in the winter and cooling and ventilating in the summer, renders impossible the usual hospital odors. We use only Pasteur germ-proof filtered water for drinking and surgery. The location, one of the highest in or near St. Louis, and away from the smoke and noise of the city, is as quiet almost as the country.

We have, in the judgement of some of the most thoughtful men among us, the best place in the West for sick, diseased, tired and worn-out people; and while we have a regular surgeon, Dr. W. H. Mayfield, and a regular physician, Dr. I. H. Cadwallader, in daily attendance at the Sanitarium, and a staff of seventeen of the best physicians and surgeons in the city at our command, representing every specialty in surgery and practice, yet the Board of Managers, heartily seconded by the professional staff, desires to keep prominently before the public the fact that everyone coming here for treatment, shall have the privilege of choosing his own physician or surgeon, whether he be connected with the Sanitarium or not. Moreover, all physicians or surgeons who desire it, shall have absolute professional control of all the patients they bring here.

We wish further to state that while this institution is owned and controlled by the Baptists, we most heartily welcome people of all denominations and of no denomination, upon terms of perfect equality. We offer better inducements for board, nursing, medical and surgical treatment than any other similar institution in the West.

A Midwifery Dispensary has been established in connection with the College, which will afford an abundance of Clinical Material. Students will thus have the opportunity of witnessing and conducting numerous normal, as well as abnormal cases of Midwifery, under the direct supervision of the Dispensary Staff.

The School is well equipped in every way for teaching Modern Midwifery, and every effort is made to make the instruction thorough and practical, and in conformity with the requirements of the Missouri State Board of Health.

sunlight. It is a very happy result of women's efforts to establish a quiet homelike hospital for women and children needing medical attention. It offers ten private beds varying in price from six to twenty dollars per week. Patients occupying these beds may have any physician of any school to attend them. A pleasant ward is provided containing six beds, in charge of the attending physician, for patients needing gratuitous attention, or at a nominal price to those able to pay it. A training school for nurses is an important adjunct, insuring to patients the advantages of a trained nurse. Special information may be obtained by addressing officers or physicians.

This institution, incorporated October, 1881, is the outgrowth of a Free Dispensary established a few years earlier by Drs. Ellen M. Kirk and Martha May Howells. The work in the Dispensary proved conclusively the need of a hospital, when generous and philanthropic women formed an association for its promotion and support. For about six years it occupied modest quarters on Ninth Street, at the expiration of that time the present building was purchased and equipped. It is centrally located on one of the best streets in the city, and has plenty of

F. E. YOUNG'S HEALTH HOME,

is a Private Hospital, for the Treatment of Chronic Diseases. It is the only PRIVATE HOSPITAL IN CANTON, and the ONLY INSTITUTION OF THE KIND IN NORTH EASTERN OHIO.

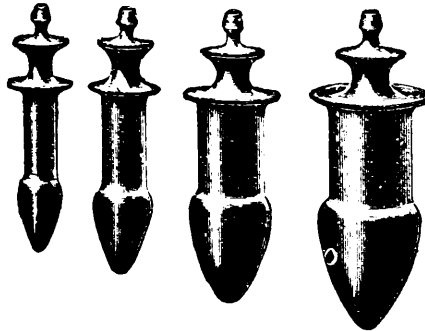

The course of treatment requires but comparatively brief stay at the Home and its past history shows that some of the worst and most hopeless cases can be cured by the "NEW WAY."

While the treatment is radical and successful beyond belief of drug fed invalids, and their friends, yet if they want to get well they should avail themselves of it, and be convinced.

YOUNG'S PLAIN Rectal Dilators

(Hard Rubber)

Price \$4 per set, by
mail, postpaid.

Young's Tubular Rectal Dilators

(Hard Rubber)

Price \$5 per set, by
mail, postpaid.

Nature intended that the rectum should be stretched or dilated every day, by the passage of a good, large-sized movement of the bowels. And everybody knows that they never enjoy better health than when they have that kind of a movement daily; but they have always thought that the reason of it was simply the emptying of the bowels, getting rid of the waste matter, and if they get constipated, take medicine to produce a movement regardless of the kind of stool. It has become an established fact that there is no medicine that can be given, that will produce a good, large-sized, firm stool, such as nature does in perfect health, and such as she imperatively demands for dilating the rectum and flushing the capillaries.

Why not imitate nature and dilate the rectum so as to invigorate the circulation where we have by improper diet, sedentary habits or neglecting the calls of nature, brought on such conditions that we do not get nature's own dilating.

Young's Hard Rubber Rectal Dilators are the best and in fact the only means for patients themselves to secure necessary dilatation.

Easy to introduce and self-retaining. Sold only in full sets so patient may at all times be sure of having proper size.

Their proper use will dilate the sphincters and relieve pain and distress in piles and local diseases of the rectum. It will flush the capillaries and equalize the circulation of the entire body and relieve local congestion anywhere. Their use is the most successful self treatment, not only for all local, but for nearly all chronic diseases as well.

The use of self-retaining rectal dilators is especially indicated in all cases of mal-nutrition, sluggish circulation, defective elimination and low vitality.

All LOCAL TROUBLES such as Hemorrhoids, Fissures and Pruritis. Pockets and Papillæ of the rectum.

F. E. YOUNG, M.D., Canton, Ohio.

Any physician of good standing is privileged to bring patients to the private rooms where they will be cared for by trained nurses. For further particulars address the **Head Physician.**

Dr. Thos. J.
Dunbar's

Electro Thermal Bath Cabinet.

This Cabinet elegantly finished in highly polished Ash and Black Walnut, with switch-board, battery and all complete. It is the cheapest one in the market and the only electric cabinet which can be used without an attendant.

Such physicians as Drs. Hammond, Austin, Von Dolcke, Flint, Otis and many others, have borne strong testimony to the great value of the Electro Thermal Baths. Certainly a beginning in the use of electric, Turkish and medicated baths, as a remedial agent, has been made. It has passed the experimental stage, and medical science will necessarily be compelled to adjust itself in harmony with the fact. Office, family and exclusive rights for sale.

For full particulars, address

"HEATHER BLOSSOM"

PURE OLD MALT WHISKEY,

is absolutely pure—has a rich, natural bouquet—is proof 99 $\frac{1}{2}$ per cent), yet mild—is a natural aid to digestion—produces no irritation or prostration of the nervous system—does not produce obesity—does not create an appetite or craving for stimulants, and is retained by the stomach when all other alcoholic stimulants are rejected. Milk will mix with it without curdling. Has been used by leading physicians for hypodermic injections, leaving no discoloration and creating no ulceration. Has been proved of the greatest benefit in cases of diphtheria, pneumonia, consumption and la grippe. Not only a stimulant, but a nerve food as well. Every organ of the body is benefited by its use. **Not for sale in Bar Rooms.** Purity proved by the analysis of leading chemists. Medicinal value proved by its use in leading hospitals. Reliability proved by the endorsement of leading physicians. We have received many commendatory letters from eminent physicians, but they are not published, as we desire every physician to prove the truth of our claims by actual test. No test can be too thorough or severe. We make no claims but what can be substantiated.

CRUMP'S TONIC, a delicious and invigorating tonic of fruits and spices. For indigestion and all stomach troubles. The Crump Manufacturing Co., 603 F St., N. W., Washington, D. C.

What the following have to say of Crump's celebrated Tonic of "Fruit and Spices"

M. M. Parker, Real Estate & Loan Broker, 1418 F. N. W.

Washington, D. C., Oct. 25, 1895. W. T. Crump, Esq., Dear Sir: I have used your Tonic of Fruit and Spices, for indigestion and constipation, and have been greatly benefited. Within two months I gained over 25 pounds in flesh which I attribute to the use of this Tonic. I believe it to be a good remedy for stomach troubles. Very truly yours, Myron M. Parker, "Ex-Commissioner."

Washington, D. C., April 26, 1894. W. T. Crump, Esq., Dear Sir: I have analyzed the compound known as Crump's Tonic. The substances in its manufacture are eminently suited to the purposes sought to be accomplished. I have also used the Tonic myself, with the best results, as a cure for indigestion. The friends to whom I have mentioned it have in each instance, derived undoubted benefit from its use. You have made a most happy mixture of ingredients, which justifies all you claim for it. Yours truly, W. C. Tilden, M.D., Ph. D., lately U. S. Government Chemist and Professor of Chemistry, Medical College, Georgetown University, D. C.

Omaha, Nebraska, Mar. 30, 1895. Omaha Savings Bank. Mr. W. T. Crump, Washington,

D. C. Dear Sir: Your favor of the 27th inst. is received. You are correct in your opinion that I derived benefit from the use of Crump's Tonic, which is a good non-alcoholic tonic, and of benefit in stomaclic difficulties like indigestion or dyspepsia. Truly yours, Chas. F. Manderson, "Ex-Senator from Nebraska."

Washington, D. C., Nov. 26, 1895. Southern Railway Co., office of Gen'l Agent Passenger Dept., 1300 Pa Ave. Crump M'f'g Co., 603 F. St., N. W., City, Gentlemen: I used one-half doz. bottles "Crump's Tonic," with beneficial effect. Respectfully, L. S. Brown, Gen'l Agent Passenger Department.

The Patent Adjustable Slip Socket

Warranted
not to chafe
the Stump.

Received the Medal and Diploma at The World's Fair, and the Gold Medal and Bronze Medal and Diploma at the California International Exposition.

The Inner Socket, seen outside the limb in cut, is made over a plaster cast of the stump, giving an exact fit, being held permanently upon the stump by elastic fastened to lacer above, and in act of walking moves up and down in the Outer Socket, bringing all the friction between the two sockets, instead of between the stump and the socket as in the case of all wooden socket limbs. With our SLIP SOCKET the most tender and sensitive stump can be fitted and limb worn with perfect ease and comfort. Endorsed and purchased by the United States Government. Send for our large catalogue with illustrations.

All we ask is for you to investigate for yourself, by writing to hundreds of railroad men having amputations like your own and wearing the SLIP Socket.

TURNBULL'S ARTIFICIAL ANÆSTHESIA

A Manual of Anæsthetic Agents and their employment in the Treatment of Disease; Modes of Administration; Relative Risks; Tests of Purity; Treatment of Asphyxia; Spasms of the Glottis; Syncope, Etc.

By LAURENCE TURNBULL, M.D., Ph.G., Aural Surgeon to Jefferson College Hospital, Etc.

FOURTH EDITION, REVISED AND ENLARGED.
ILLUSTRATED. 12mo. CLOTH, \$3.00.

P. BLAKISTON, SON & CO.,
1012 Walnut St., Phila.

NOTICES OF THE THIRD EDITION :

Dr Turnbull has taken a great deal of trouble in all the editions of his book to obtain the latest facts in regard to this most important subject. The third edition has been particularly well cared for in this respect, to such an extent, indeed that the book is considerably increased in size as well as value. To the physician wishing to post himself as to anæsthetic drugs of all kinds, whether their use is local or systemic, we heartily recommend Dr. Turnbull's work as one embodying everything of importance in regard to the subject of which it treats, as well as an amount of historical and practical information with which everyone should be acquainted.—Medical News, Philadelphia.

The author has positive opinions, based on large experience, as to the relative safety in various operations of the different agents employed, and presents an intelligent and intelligible description of their natural and physiological characteristics and peculiarities, and of the methods of treatment to be employed in the event of untoward symptoms presenting.—The Dental Cosmos, Philadelphia.

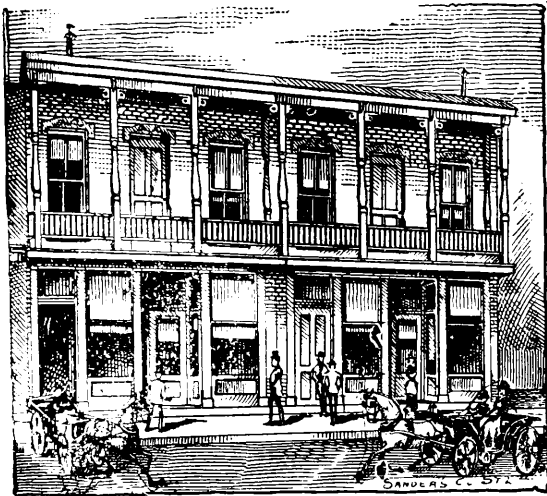

We wish that this little volume might be placed in the hands of every interne who thinks that he knows everything that is worth knowing about the administration of ether.—Medical Recorder, New York.

All through the book it will be noted that new remedies which have any bearing upon the relief of pain have been duly incorporated, and, on the whole, we have but words of commendation. What a satisfaction it must be to the author who has thus accumulated all the information upon his special branch of practice into one compact mass in the shape of a book!—Medical Bulletin, Philadelphia.

The closing chapter upon “The Medico-Legal Relations of Anæsthetics” will well repay the cost of the work.—The Journal of the American Medical Association.

THE HAMMOCK INVALID FOLDING BED

The hammock feature is one of the most valuable of the many good points of this bed, facilitating the change and airing of bedding, giving the patient the relief of being lifted from a heated mattress to a cool and comfortable hammock, securing perfect ventilation of the body and preventing bed-sores. The circular opening in the hammock enables the use of a chamber without inconvenience. In fact this bed is a revelation to the weary invalid, being invaluable in the treatment of all acute and Chronic Diseases, Paralysis, Rheumatism, Consumption, Continued Fevers, Heart Disease, Fractures and other severe injuries and surgical operations.

ELIXIR OF OPIUM.**

An Invaluable Discovery in the Preparation of Opium.

It contains all the valuable medicinal properties of Opium in natural combination, to the exclusion of all its noxious, deleterious, useless principles upon which its bad effects depend. It possesses all the sedative, anodyne and antispasmodic powers of Opium: To produce sleep and composure; to relieve pain and irritation; nervous excitement and morbid irritability of body and mind; to allay convulsive and spasmodic actions, etc.; and being purified from all the noxious and deleterious elements, its operation is attended by no sickness of the stomach, no vomiting, no costiveness, no headache, nor any derangement of the constitution or general health. Hence its high superiority over Laudanum, Paregoric, Black Drop, Denarcotized Laudanum, and every other Opiate preparation.

CAUTION.—On account of its large sale, spurious articles are offered in bulk. The genuine is sold only in vials of about 7 drachms, with yellow wrappers and signature of Jno. B. McMunn.

ELIXIR SIX IODIDES

This Elixir is prepared from the Chemically Pure Salts. Results can be looked for from its administration that could not possibly be expected from the Commercial Salts.

FORMULA:

Each fluid drachm contains Arsenici Iodidum 1-125 gr., Ferri Iodidum 1-125 grain, Hydrargyri Iodidum 1-125 grain, Manganesii Iodidum 1-10 grain, Potassii Iodidum one grain, Sodii Iodidum one grain, with Aromatics.

MEDICAL PROPERTIES:

The great value of this combination is it relieves those obscure and chronic obstructions to gland action—the kidney, liver, pancreas, as well as the lymphatic system, which may exert so great an influence for evil on the economy. It enjoys the confidence of the Medical profession, as its use is indicated in a wide range of diseases, particularly so in pernicious anæmia, skin diseases both scaly and papular; has remarkable curative effects in specific diseases and other manifestations of systemic infection, chronic uterine and pelvic diseases, and in complaints where an alterative and tonic is indicated.

This combination proves that the united action of remedies is often requisite when either, alone, is insufficient. Physicians when prescribing will please write: Iodidl Elix. Six—WALKER-GREEN'S—One Bottle.

Attention is also called to our Elixir Six Bromides, Elixir Six Hypophosphites and Elixir Six Aperients, which are unexcelled for clinical efficiency and palatability.

Wholesale price per dozen: Iodides, \$8; Hypophosphites, \$8; Bromides, \$8; Aperients, \$8. Send for Descriptive Circular. These Elixirs are kept in stock by Wholesale Druggists generally throughout the United States.

Drs. Galleher & Co are the American agents for the Scott Positive Catarrh Cure, an instrument composed of Compressed and Medicated Gas. This treatment is entirely new to the American people. It was invented by Dr. Edward Scott in 1834, in London, England, and it has never been handled in America by any other person excepting Drs. J. Gore Galleher & Co., who secured the right in 1893. We think it is worth your time and attention to at least investigate the new treatment. Do not put off your case until your Eyes, Ears, Nose, Lungs, Stomach and Throat are ruined—call early. Persons applying to us by letter should write name and address plainly, but personal consultation is preferred. Office days for this treatment are Thursday, Friday and Saturday of each week, from 9 a. m. to 4 p. m., and Sunday from 1 p. m. to 2 p. m. Consultation and examination free and strictly confidential. The Preliminary Clinical Lecture Course will begin September 15th, 1896, and end September 30th, 1896. The regular winter session will begin October 1st, 1896, and continue six months. The student of Medicine is given unsurpassed clinical advantages at this school.

THE COLLEGE BUILDING is provided with suitable Lecture Halls, equipped with theatre seats. It contains also the Physiological, Chemical and Pathological Laboratories, and Dissecting Rooms, the Dispensary Apartments and Class Rooms. Adjoining the amphitheatre, the Chloroform Room, which has been most handsomely fitted up.

THE BALTIMORE CITY HOSPITAL, a magnificent structure with a capacity of over 300 beds, is located in the heart of the city. It is thus enabled to command most of the accident cases occurring in Baltimore. The faculty have exclusive medical control of it. Systematic bed-side instruction in ward classes is given by the faculty and their adjunct faculty throughout the year. A limited number of students will be admitted as residents in the hospitals.

The Maryland Lying-in Asylum, established by this school in 1874, was the pioneer institution of its kind in the State. It is full of obstetric cases throughout the year, and furnishes each student with bed-side instruction and experience.

The Public Wards for Women, in the Baltimore City Hospital, adjoin the college amphitheatre, and enable the Professor of Gynaecology to demonstrate practically the various diseases of women and to perform numerous operations before the class.

Bay View, the Almshouse of Baltimore, which contains 1,200 beds, has been thrown open for the clinical instruction of students of this school. A resident Physician for the Medical and Surgical Departments is annually appointed at this institution, with a salary of \$500 and board from the College of Physicians and Surgeons. An Assistant Resident Physician is also appointed from this school.

The City Hospital Dispensary, organized over twenty years ago, is wide-spread in its influence, and adds largely to the clinical attractions of the school.

Frequent post-mortem examinations are made before the whole class, and the medico-legal bearings of the cases are fully discussed.

Attendance upon the demonstrations in the Physiological, Chemical and Pathological Laboratories is required of every student.

The Anatomical rooms are spacious and airy, and dissecting material abundant.

Students of Medicine can procure a Skeleton at any time by writing to the janitor.

A Resident Physician and three Assistant Resident Physicians for the City Hospital, a Resident Physician for the Maternite Hospital and one for the Colored Hospital are appointed annually from the graduating class as awards of merit. A limited number of students will be admitted as residents in the hospital.

All students who enter this school hereafter will be subject to a preliminary examination.

Both voluntary and committed patients are received. There are fifty acres of land and ten acres of parks. Five cottages give ample opportunity for the classification which is so large an adjunct to success. Plenty of excellent water, fine drainage and all the modern improvements in buildings make it an ideal place for the afflicted. Owego is a railroad center and easily reached from all points. Dunham Medical College,

CHICAGO.

370 South Wood St., opposite Cook County Hospital.

The Homœopathy of Hahnemann as the Organon Teaches it.

A Model New Building. Standard Equipment. Abundant Light. Perfect Heat and Ventilation. Large Laboratories. A Complete Medical Library Open to Students Every Day. The Richest Surgical Clinics.

THE DUNHAM MEDICAL COLLEGE teaches the Homœopathy of Samuel Hahnemann without perversion or admixture with the crude dosage and make-shift methods of so called "Modern Homœopathy." It adheres to the single remedy in the potentized form, and the minimum dose. It has no apologies to offer for what it regards as the essential principles of Homœopathy. It makes a specialty of the *Organon* of Hahnemann and the *Homœopathic Materia Medica*.

Students who desire to study Homœopathy at all, are urged to study the art of healing as Hahnemann taught it, and not as some of his professed followers have perverted it.

The Christina Forsyth Rest=Cure.

...FOR LADIES ONLY...

Highly recommended and patronized by the leading physicians in Chicago and elsewhere throughout the United States.

In giving the Rest-Cure it is essential to avoid a too literal and routine application of Rest, Massage, Electricity and Food.....The treatment must be varied according to the needs of the individual. The advice and co-operation of physicians is therefore desired.

New System of Bookkeeping

FOR PHYSICIANS

CONSISTS OF A DAY BOOK AND LEDGER.

The Day Book is a complete, PRACTICAL and LEGAL FORM, for keeping daily accounts, as a book of original entry. It contains a title page, a table of contents, a table for obstetrical calculation, a calendar, a table of signs used in writing the accounts, twelve pages for bills sent monthly, and twelve pages for address of patients and others.

It has for each week in the year four pages; one for SPECIAL charges and credits, one for all REGULAR VISITS, one for daily EXPENSE ACCOUNT, and one for CASH received. All special charges, and credits on account, are written on the special page, and include all moneys paid on account, and all special charges for examinations of the chest, abdomen, pelvis, and their viscera; urine, dislocations, fractures and their treatment; surgical operations, obstetrical delivery, instruments and medicines furnished; EXTRA HOURS OF DETENTION with patients SHOULD BE CHARGED.

The page for regular visits is ruled in columns for name of patron; for WHOM visits are made; for day of the week and month, and columns for amount charged, opposite each name, at the end of the week.

The page for daily expenses will show at the end of the week all disbursements, and to whom paid, thus preventing imposition from the unscrupulous.

The page for cash received will show the date and amount received, and from whom. This will materially assist physicians to keep all credits correctly written up, on the special page, should they overlook any by mistake.

A Day Book SHOULD BEGIN AND END WITH THE YEAR.

All accounts MUST BE WRITTEN IN INK, and on the day the services were rendered, to comply with the law; to make it a Legal Day Book of original entry.

To secure the Day Book promptly in any year on the first day of January, the order MUST be sent PREPAID before the first day of December preceding.

Price, \$3 each. Sent free of charge on receipt of price. Copyright secured.

The Ledger is printed in clear type, on the best of paper, ruled in columns with appropriate headings to correspond with the pages of the Day Book. There are columns for regular visits; to whom; special charges; old account, and total amount of debit. A SINGLE line of the Ledger will contain the entire weekly account of a patron when posted from the Day Book. The credit side of the Ledger is ruled in columns to show the month, day, year, amount of cash paid, balance still due, and time bills were presented. If kept properly, the balance, due after each credit will appear in its appropriate column; always an item of great importance.

PRICE OF LEDGERS:

500 pages, bound in leather.....\$7.00 250 pages, bound in leather.....\$5.00

The 500-page Ledger is the cheaper.

Copyright secured. Books sent free of charge on receipt of price.

"FAIR OAKS,"

Conducted by DR. A. B. HOWARD,
CUYAHOGA FALLS, O.

A FAMILY HOME
FOR NERVOUS AND
MENTAL DISEASES.

ANNOUNCEMENT....

FAIR OAKS, so-called, is a quiet home situated at Cuyahoga Falls, Ohio, 28 miles from Cleveland. The residence is built of brown stone, delightfully situated on a hill just above the famous picturesque Glens, with nearly six acres of land. The grounds are beautifully laid out, with shrubbery and foliage in abundance. The interior of the house is large and well adapted for the purpose, with all the modern improvements—including steam heat, electric light, baths, etc. It is to all intents and purposes a "Family Home," where everything is made as home-like as possible. Intelligent men and women are employed as attendants and companions for the patients.

The feeling of social degradation that is commonly felt by patients in retreats and public institutions is not experienced here. The utmost possible liberty being permitted, under suitable guardianship, to all the patients, and each one is regarded and treated as a member of a private family.

Each case receives the attention and study given to private practice, and when needed the ablest medical talent in the country is called into consultation.

The drives in the vicinity are considered delightful, and for healthfulness of location "Fair Oaks" is unsurpassed.

Silver Lake, a beautiful summer resort, is less than two miles distant; also Brady's Lake, about five miles. A conveyance is kept for the pleasure and use of the patients, and no pains are spared in affording each patient all the happiness and recreation possible.

One excellent feature to be considered by all is the limited number of patients; not more than fifteen will be cared for at any time. "Fair Oaks" will be under the direction of Dr. A. B. Howard, who for the last two years has been connected with the Cleveland State Hospital for the Insane, acting in the capacity of Assistant Superintendent.

All communications can be addressed to him at Cuyahoga Falls, Ohio.

TO WHOM IT MAY CONCERN:

This is to certify that I, the undersigned, Robert Baty, of Milwaukee, Wis., have for a valuable consideration sold and transferred to C. H. Doerflinger, of the same city, my entire business with all its appointments and good will, including the exclusive privilege for the whole territory of the United States to use my firm name as my successor, and that no other person has ever acquired that right from me.

Having known Mr. Doerflinger for a quarter of a century, and being convinced that he intends, and with the excellent orthopedic artisan he has secured, will be able to furnish first-class professional work, I recommend him most earnestly to the Surgeons, the Directors of Hospitals, and the public generally.

(Signed) ROBERT BATY.

THE MEDELA COMPANY

SOLE MANUFACTURERS OF THE

Medela Toilet and Medicated Bath Soaps and the Medela Curative Powders.

The Soap is a most wonderful curative agent, pure, free
from all poisonous substances, and far superior to any soap used
for the complexion. For chapped hands or in dressing wounds,
for ulcers, salt rheum, burns, carbuncles, boils and all skin dis-
eases, it is invaluable.

The Powders, like the soap have the medical properties of
the celebrated medical springs in Washington. Used so long with
assured success they are a positive cure for rheumatism, dyspepsia,
sick headache, catarrh, kidney and bladder troubles, piles and dis-
eases of the skin and blood. The Soap and Powders are highly en-
dorsed by leading chemists and physicians. If you do not find
them at your drug store, order direct from the manufacturers.

CISTERN CLEANERS.

AUTOMATIC • CISTERN • CLEANER

Patented August 23d, 1892.

The New Automatic Suction or Columbian Cistern Cleaner is only machine that thoroughly cleans and purifies cisterns without moving the water. By using this machine you can always have nice, clean and wholesome cistern water. There is no danger to health in using water purified by this cleaner. It is much cheaper than the old way of pumping out all the water and doing without it rains. The machine is light, simple in construction, to operate and will last a lifetime, being made entirely of iron. Be wise and act quickly, this is your opportunity—do not miss it. State and County Rights sold cheap. Agents wanted. A line can make \$5 to \$50 a day.

GEORGE W. LYNCH'S

To Physicians:
A perfectly pure
Cod Liver Oil of
full natural
strength and yet
of surprising delicacy of
taste is what I present
to you; being a Whole-
sale Fish Dealer and
producer of Fish who has a
lifelong knowledge of Fish,
their habits and their ana-
tomical parts, I produce a
Fresh and Pure Cod Liver Oil
from Selected and Healthy
Livers of the Live Cod,
which oil can be taken by the delicate
invalid or feeble infant being as
pleasant as a prime sweet Olive
Oil: to you who know how dif-
ficult it is to persuade patients to
take Cod Liver Oil, and yet
who cannot but agree with
them in their characterization
of the article usually sold as
nauseous; this Oil will
be a revelation to you:
in preparing Emulsions
it has no equal.
10 cents in stamps will
bring sample in wooden
box by mail. Order from

“Petit's Patent Electric Womb Battery.”

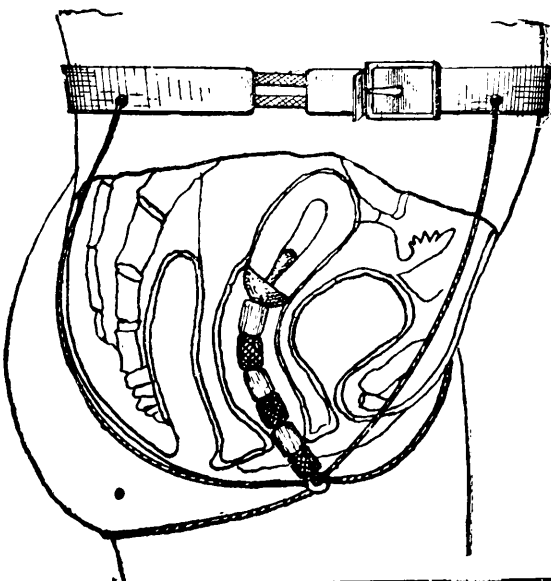

This instrument is now being used and recommended by the foremost Gynæcologists in this country and Europe.

It is simple and light in construction, and occupies so little space, that the patient does not feel the least inconvenience from its presence, (a frequent trouble with most pessaries and supporters.) The Electrical Stem can be bent to any desired curve or angle, and adjusted to treat any variety of Uterine Displacement while it is held in place by Elastic Tubes, permitting all positions of the body without pain.

The Battery Cup fits up close around the Uterus, where we can get the Cathartic action of remedies into the tissues, as a Medical Applicator, etc. In many cases of Chronic Displacement, Ulcerations, Hypertrophy, Sacralgia, Headache and Ovaralgia, the effect of the battery is most magical.

Thoroughly Scientific Medical Treatment of the Drink Habit as a Disease.

A Safe, Certain and Reliable Remedy for the Liquor, Opium or Morphine Habit.

A Perfect Restorative, Invigorating to Mind and Body.

RECENT investigations by Dr. F. A. Wheeler, have established the fact that inebriety is a disease of the blood vessels and fluids of the body, as well as of the brain and of the whole nervous system, showing as marked physiological changes as those shown by other diseases. The Wheeler Remedy acts upon the blood vessels, corrects the secretions of the stomach, steadies the nerves and does not impair any of the functions of mind or body. It counteracts the deleterious effects often produced by other liquor, opium or morphine remedies, and cures the disease by kind, intelligent medicinal treatment. The remedy acts as a tonic, the abnormal appetite is eradicated and its system restored to its normal condition. It is sure and safe and beneficial and invigorating to manhood.

There is no publicity in the matter and the names of patients treated will not be given without permission. Some of the brightest and most talented men in the country have been treated by the Wheeler Remedy, and none need despair for all may be restored. This remedy has the endorsement of physicians, clergymen and temperance workers throughout the country.

Francis Murphy, the great apostle of temperance says of it, "I am pleased in being able to say that I found the cure all that its advocates claim for it. I unhesitatingly pronounce it a safe, reliable and effective cure and remedy for dipsomania, commonly called drunkenness, and I hereby give it my hearty endorsement, and bespeak for it the confidence and encouragement of all my friends.

Our medical director, Dr. Wheeler, the discoverer and formulator of this cure, has had years of experience in the treatment of the liquor, opium and morphine habits and has met with most remarkable success.

TO THE MEDICAL PROFESSION:

The Wheeler Remedy is not an experiment, but has been used with wonderful success. The results are speedy, safe and permanent. The remedy is manufactured and sold only by us. It is hypodermically administered, and is not a gold or mineral cure, does not necessitate a cessation of business activities. The time required for a complete cure is only from two to three weeks, but from the first treatment the patient is rapidly restored to a normal condition. We are desirous of establishing branch cures, and will make satisfactory arrangements with some enterprising physician in each locality for the exclusive treatment. We have a college department where physicians can obtain thorough instructions regarding these habits and cures. For particulars address the company.

All correspondence relating to treatment is strictly confidential. If there is no physician in your locality who is authorized to administer our treatment, ask your physician to write direct to the company, or see us. For the treatment or further information regarding the remedy, prices and terms, testimonials, or the establishment of branch cures, call on or address.

ELIXIR SIX IODIDES

This Elixir is prepared from the Chemically Pure Salts. Results can be looked for from its administration that could not possibly be expected from the Commercial Salts.

FORMULA:

Each fluid drachm contains Arsenici Iodidum 1-125 gr., Ferri Iodidum 1-12 grain, Hydrargyri Iodidum 1-125 grain, Manganesii Iodidum 1-10 grain, Potassii Iodidum one grain, Sodii Iodidum one grain, with Aromatics.

MEDICAL PROPERTIES:

The great value of this combination is it relieves those obscure and chronic obstructions to gland action—the kidney, liver, pancreas, as well as the lymphatic system, which may exert so great an influence for evil on the economy. It enjoys the confidence of the Medical profession, as its use is indicated in a wide range of diseases, particularly so in pernicious anæmia, skin diseases both scaly and papular; has remarkable curative effects in specific diseases and other manifestations of systemic infection, chronic uterine and pelvic diseases, and in complaints where an alterative and tonic is indicated.

This combination proves that the united action of remedies is often requisite when either, alone, is insufficient. Physicians when prescribing will please write: Iodid Elix. Sex—WALKER-GREEN'S

—One Bottle.

Attention is also called to our Elixir Six Bromides, Elixir Six Hypophosphites and Elixir Six Aperients, which are unexcelled for clinical efficiency and palatability.

Wholesale price per dozen: Iodides, \$8; Hypophosphites, \$8; Bromides, \$8; Aperients, \$8. Send for Descriptive Circular. These Elixirs are kept in stock by Wholesale Druggists generally throughout the United States.

The Walker-Green Pharmaceutical Co., (Incorporated.)

No. 180 W. Regent Street, Glasgow, Scotland, and Kansas City, U. S. A.

A liberal discount will be allowed Physicians who desire to prove their clinical efficiency.

A VERY . . . INTERESTING CASE

DR. BOLUS REPORTS THE FOLLOWING CASE:

"An epidemic of contagious diseases made its appearance in our Asylum. As none of the inmates had been exposed to contagion, an investigation was instituted, resulting in the discovery that the infection must have originated in the *Laundry* of the institution, which was equipped with Wooden Washers, and was without any appliances for sterilization.

The following treatment gave us thorough and permanent relief; and is recommended as a certain remedial and preventive agency.

DR. TAYLOR'S

MEDICAL COUNCIL, PHILA.?

THE ONLY JOURNAL TREATING OBSTETRICS, DISEASES OF WOMEN,

practice. We will help you to diagnose and treat them.

Practical, Earnest, Straight-forward, Business-like. No padding or dull matter.

Helpful, Fraternal, Interesting. The favorite journal for the physician who sincerely
wants to do his own special work without constantly dividing fees and honors with
the specialist.

Subscription only \$1.00 per year. Each number is alone worth more than that

Advertisers get direct and bountiful results from **The Council.** Rates scientifically
adjusted to circulation. Address, (mentioning this notice.)

We refer to a few who recommend the system, having seen a practical demonstration of the work: Hon. John Wanamaker, ex-Postmaster-General, United States; Prof. Horatio C. Wood, M. D., LL.D., and Prof. Harrison Allen, M. D., of the University of Pennsylvania; Bishop Cyrus D. Foss of the M. E. Church, Phila.; Henry W. Halliwell, Esq., Sec'y Board of Education, Phila.; Hamilton Disston, Esq., Phila.; Col. M. Richards Muckle, 52 years Manager Public Ledger, Phila.; Aug. C.
